THAYA CHEVAPHATRAKUL

thayajjj@gmail.com | 0480-320-112 | www.linkedin.com/in/thayacheva

OBJECTIVE

- A diligent third-year undergraduate pursuing a Bachelor of Science degree and a Computing and Software Systems major, possessing a diverse skill set in both computer hardware and software. Has a strong foundation in Front-End design and development for mobile applications and websites

EDUCATION

Bachelor of Science   **Mar 2021 - Jan 2024**
The University of Melbourne
Computing and Software Systems Major

SKILLS

- Programming Languages: Python | C | Java | SQL
- Web Development: HTML | CSS | JavaScript | React | Sass
- Version Control: Git
- Personal Traits: Creative | Adaptable | Hard-working

RELEVANT PROJECT WORK

LastBite | 2nd Place Winner at 2023 Melbourne Hack   **May 2023 - May 2023**
Full-Stack Web Development, Hackathon

- Developed LastBite, a service acting as an online food marketplace. It addresses problems of achieving responsible consumption and production, enabling users to give away unwanted food or leftover food and others can choose to collect it
- Oversaw project implementation and managed its UI/UX development. Developed main landing page and facilitated team collaboration to define project requirements and refine project concept

Personal Web Page   **Oct 2019 - Oct 2019**
Front-End Web Development, Personal

- Created a personal portfolio webpage using React. The webpage contains interactive components to engage users and deliver a seamless experience
- Implemented captivating animations, scrolling effects, and interactive menus for a dynamic user experience. Demonstrated expertise in responsive design, ensuring seamless adaptability across devices

RELEVANT EXPERIENCE

IT Equipment Installer   **Mar 2022 - Mar 2022**
METACOM, Australia

- Collaborated with a team to provide on-site IT equipment installation and set-up services to various offices. Responsible for managing the configuration and installation of systems such as computers, iMacs, and VoIP phones
- Established clear communication, ensuring team alignment
- Required to adapt to different IT equipment and set-ups to meet the specific needs and requirements of each client
